

Meeting Title: Design Proposal Document Review

Date: 21/11/2021

Participants: Gennaro and Michael

Format: MS Teams

Discussion Points

- On this date we met for the first to discuss how we are going to proceed with the making of the design document.
- We read together with the requirements.
- Gennaro stated that we should use SQLite for the prototype as it is easier to implement
- We wrote an internal document with all the clear unambiguous requirements.
- The Dutch police domain was selected
- We gathered some questions to ask about things that are not clear.

Action Items

- Michael to read the domains to decide on which domain to work – 24/11/2021

Goals

- Select domain requirements
- Use case diagram
- Choose Python libraries
- Begin UML design
